_1 Along with having an on-trend seamless look, threshold-free showers mean less chance of tripping. Ceramica Globo's Docciapietra shower tray can be installed to sit flush with the floor, and the stone-like mineral-and-resin composite is antibacterial and non-slip. ceramicaglobo.com

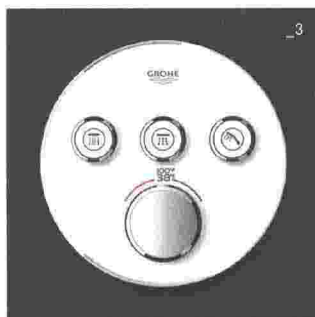

_2 A double shot of convenience, the Spectra + ETouch by American Standard features a fixed shower head that can be controlled by touching its outer ring, and a remote control that can be mounted anywhere within the shower for those who can't reach the fixture. americanstandard.ca

_3 The smart thermostat of the Grohe Grohtherm SmartControl system (when used with the Rapido Smartbox) has an override function that prevents scalding by instantly shutting the hot water flow off if the cold water supply fails. The easy-grip knobs give quick control over spray intensity and water volume with a turn of the dial or a push of the centre button. grohe.ca

_4 The Hug grab bars by Ponte Giulio turn a standard safety feature into an eye-catching design element. They are part of a larger collection of accessories that puts a contemporary spin on functional elements. pontegiuliousa.com
