10. **Ponte Giulio** showcases the Bella line of folding shower seats in both wood and HPL finishes. The wood seat is made of water-resistant Okoume wood that looks like teak and supports 600 pounds. The HPL shower seat slats are made of high-pressure laminate that resemble weathered oak, and the seat will support 450 pounds. Circle No. 219 on Product Card

11. The ellumi germ-killing Recessed Shower Light - powered by Vital Vio's VioSafe technology and launched by **Evolution Lighting** - goes from Standard Mode to Disinfection Mode with the flip of a switch. Its Disinfection Mode works to inhibit the growth of mold, mildew and bacteria, and is safe for continuous human and pet exposure. Circle No. 220 on Product Card

12. **Keuco** has added modern rectilinear shower shelves in both white and gray-black, powder-coated aluminum finishes. In addition to two wall-mounted models, there is also a shower shelf that can be hung on the glass screen. Standard and custom widths are available. Circle No. 221 on Product Card

13. Designed for zero-entry showers and wet areas that are ADA compliant, **QuickDrain USA's** ProLine linear stainless steel shower drain features a fully sloped, 1"-deep and 1"-wide trough where water exits through either a vertical or side waste outlet. Seven cover designs are available. Circle No. 222 on Product Card

14. Besides holding sanitary paper, the new shelved paper holders from **Dezi Home** provide a sanitary place to put smartphones and other small items. The paper holder/shelf combinations are available in three different styles - Harmoni Series shelf with frosted glass, Harmoni Series shelf with metal shelf and the Simpliciti Series with a double paper holder - in five finishes. Circle No. 223 on Product Card

15. The DTV+ showering system with Kohler Connect from **Kohler** can be controlled with voice-commands. Users can adjust water temperature, control showerheads, body sprays, music, lighting, steam and shower duration with voice commands, the DTV+ interface or on their mobile device with the app. Circle No. 224 on Product Card

16. **Neolith by TheSize Surfaces** has launched Neolith Slip-No-More, a proprietary anti-slip technology that is applied to the surface of the material during manufacturing, before the sintered stone has been fired. This results in anti-slip qualities that remain effective during the stone's lifetime. Circle No. 225 on Product Card

17. The Cabernet Floating Vanity gains its authentic weathered finish as a result of the oak staves soaking in wine for many months, infusing tannins and aroma while absorbing the color of the grapes. The **Native Trails'** vanity features a water-resistant low-VOC sealer, and measures 35.5"x18.75"x9". Circle No. 226 on Product Card

18. The Metropolis wall sink, designed for compact bathrooms, can be installed at ADA-compliant heights. The sink - part of the Boutique Collection from **MTI Baths** - is made of the company's proprietary SculptureStone. Metropolis is available in white or biscuit in both a matte and deep gloss finish.
